

ABBOTT KINDLY INVITES YOU:

Percutaneous connection of the HLM in minimally invasive surgery procedures. Management of the puncture site with percutaneous suture mediated closure

Minimally invasive procedures and how to connect the HLM in those procedures is quite an interesting topic that will be covered by our expert in this WebSeminar. He will keep the focus on the management of the puncture site. Additionally you will get an insight in the daily practice at the university hospital in Düsseldorf (Germany) including tips and tricks and you can address your questions in the course of this WebSeminar.
Ihr Referent : Herzchirurg Univ.-Prof. Dr. med. Payam Akhyari (Stellvertretender Klinikdirektor und Leiter der Forschungsgruppe Experimentelle Chirurgie am Universitätsklinikum Düsseldorf)
